

The map displays the city of Marshall, Missouri, and its surrounding areas. The city limits are outlined in a thick black line. Various districts or areas are highlighted in different colors: pink for the central urban area, yellow for Lacombe and Albion, green for Melbourne, and blue for St. Anthony and Clemens. Other labeled areas include State Center, P/JDC, Rhodes, Haverhill, Pergamon, Laurel, and Guilman. The map shows a network of roads, including major highways like I-49 and I-55, and a grid of local streets. Water bodies, such as the Missouri River and several lakes, are also depicted. The map is titled 'MARSHALL, MISSOURI' at the top center.

### CENSUS TRACT CODE REVIEW MAP - LEGEND

SYMBOL DESCRIPTION	SYMBOL	LABEL STYLE	DESCRIPTION	SYMBOL	DESCRIPTION	SYMBOL
American Indian Reservation and/or Off-Reservation Trust Land		not labeled	Water Body		Interstate or U.S. Highway	
State (or statistically equivalent entity)		<b>NEW YORK 36</b>	College or University		State Highway/Road	
County (or statistically equivalent entity)		<b>ERIE 029</b>	Military		Other Road	
Minor Civil Division (MCD) <sup>1</sup>		Lee town	Prison or Juvenile Detention Center		4WD Trail, Waterway, Alle, Walkway or Ferry	
Consolidated City		MILFORD	National Park or Forest		Nonroutable Boundary	
Incorporated Place <sup>2</sup>		Davis	Outside Subject Area			
Census Designated Place (CDP)		Cochiti	Islet Area			
Census Tract <sup>3</sup>		<b>33.07</b>				

Where state and county, and/or MCD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

State and county names are followed by their FIPS code.

1 MCDs are symbolized and labeled only in the 12 strong MCD states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

2 Incorporated place name color corresponds to the incorporated place fill color.

3 The full census tract code consists of six digits with an implied decimal point between the fourth and fifth digits. For legibility on this map, the leading zeros have been stripped and the decimal point is shown. To translate a census tract number on the map to its full code, add as many zeros as needed to the left side of the number to reach six total digits and remove the decimal point before the last two digits.

Example: Census tract number on the map "33.07" represents census tract code "003307"

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

Due to space limitations, some road names, along with other feature and geographical names on the map, may not be shown.
